Chief, Management Staff

Chief, O&M Staff (DD/I and DD/E Area)

Work Report Week Ending 29 August 1956

Accomplishments

1. T/O's Completed.

MS-951-960, Transfer of Ceiling from OCR to DD/P and reduction of OCR T/O by 10 positions to equal ceiling.

MS-855, T/O was reduced to ceiling . Propaganda analysis function, due to the curtailment, was withdrawn from the field and concentrated in headquarters. The Propaganda Analysis Branch was reorganized with the major accomplishment the segregation of a small group (Research Section) for long range analysis.

2. Completed arrangements for more effective distribution of work in Correspondents and Records Branch, S&D, OS.

25X1
3. Established new film control procedure for the Agency. Prepared a proposed amendment to CIA Regulation No. to require the appointment of Film Procurement Officers in each component and prescribe accountability procedures. It has been cleared by Graphics Register, OCR and Photo Intelligence Division, OHR and presented to OCR to arrange for publication.

4. Project 5-80, Review of Procedures of Printing Services Division and assistance in implementing recommendations. Revised packaging procedure with a net saving of .7 clerk, thus aiding in reduction of backlog.

5. Project 5-62, OCR Four-Register Survey. The AD/CR has replied to our six recommendations, accepting four and part of the fifth, requesting more time on the remainder.

Recommendations Accepted

a. The Industrial Register statement of mission and functions has been brought up to date.

b. The Reports Unit in the Special Register has been elevated to a section for proper functional alignment.

SECRET

c. The Industrial Register support activities have been deemphasized. Achievements to date allow the transfer of two positions from the Support Branch to the substantive analysis branches, where the workload is increasing.

d. Tabulating and card punch units have been established in two registers for uniformity of organization.

Recommendations Pending

23g. The Reproduction Control Unit, Industrial Register be abolished and the microfilming operation be transferred from Industrial Register to Machine Division.

Assignments Active This Week

6. Project 6-45, OCR Space Study - At request of DE/I an analysis of overcrowding in OCR and appropriate recommendations for improvement.
